

Team 6: Evan Yang, Eura Shin, Matthew Phelan, Trent Woods

CS 499-001 Fall 2019

September 27th, 2019

**Word Count:**

Evan: 0

Eura: 29

Matthew: 17

Trent: 0

As shown across our previous documents (requirements and planning/estimation):

Estimated story points: **29 story points**

Product size: **8 user stories, 20 acceptance test plans**

Product effort: **100 work hours total**

In calculating these metrics, we consider the total expected workload for the semester (not just up to this point).
