

DEATH SCENE INVESTIGATION APP

Team 6: Matthew Phelan, Eura Shin, Evan Yang, Trent Woods
Customer: Dr. Sabrina Brown

Violence is a nationwide health problem that results in over 50,000 homicides and suicides each year. The Center for Disease Control has developed a nationwide, state-based surveillance system - the National Violent Death Reporting System (NVDRS) - that is designed to track trends and characteristics of violent deaths with the goal of reducing these deaths.
